AUCTION #19

Closing June 11, 1989, Sunday, 7:00 p.m. USA Pacific Time

There are a number of outstanding USA Hard Times and Civil War tokens listed in this catalog. Collectors of French tokens will find a good selection of town pieces along with a number of medals. British Commonwealth enthusiasts should look in the British Isles section for Unofficial Farthings and Channel Islands tokens. The German WWI cruiser, S.M.S. Emden, is represented by a 10 Pf. token as well as some telephone tokens from countries that are difficult to collect. Transportation token collectors will find some unlisted pieces from Korea, Mexico and Yugoslavia. Gaming token collectors will encounter a selection of French gaming chips.

Lot descriptions are of necessity brief and oriented to numismatists. Sizes are in millimeters, although larger paper pieces are often in inches. Tokens are round unless otherwise indicated. Materials are shown as Al, Br, Cop, Ir, Ld, Nkl, Zn or Pl(astic). When parentheses are used it means that the information enclosed is not in the token legend or describes some device on the token. Catalog numbers are often used to aid description, e.g. (L#101.3) and refer to the most standard U.S. work on the topic at hand. Since listing each reference would be too cumbersome, please write if you need to know which. Dollar values written simply (\$5) mean a suggested bidding range. An MB enclosed with a dollar value in parentheses (e.g. (MB\$25)) means a "Reserve" or "Minimum Bid". Grading can be only approximate in a series as varied as tokens. I try to be conservative and in most cases have reduced items by one grade where there is any question in my mind. Comments on my listings and methods of operation are always welcome.

MAIL BID SALE RULES AND TERMS

1. The sale closes at 7 p.m. USA Pacific Time on the date noted above or until 15 minutes pass with no telephone bid. Lots are sold to the highest bidder. In the event of tie bids the lot goes to the earliest arriving bid. Bids of only a few cents difference will be considered tie bids.
2. Bids must be in U.S. Dollars and those under \$3 are respectfully declined.
3. Winning bids over \$50 will certainly be reduced to a 10% advance over the next highest bid, or its Minimum Bid. Below \$50 reductions will be made where possible and based on my judgement. In general the 10% guideline will be followed. The maximum reduction will be 50% in any case. Bids will not be reduced under \$10. In general acceptable bids will be those that are at least 60% of the estimated value.
4. Successful bidders will either be billed first or sent winning lots with the bill if they are established customers. Postage, shipping and insurance costs will be added to the invoices where such are appropriate. There will be a minimum charge of \$1 for postage and processing. A Bidder's Fee of 5% or \$1 will be added whichever is higher. California residents must pay 6% Sales Tax. Overseas customers must accept responsibility for postal delivery.
5. **Prices Realized:** please order them when you submit your bids. Do not send payment. I will include the cost with your bill, \$1 per copy.
6. Lots may be returned within 10 days of their receipt **only if there is a major error** in the description or in the material sent. Please check the shipments for such and keep a copy of the bids you submit. Please pay within 5 days.
7. **Lots Made Up of Multiple Pieces:** In most cases these consist of items which are a) very common, b) badly worn or damaged, c) struck after 1950, d) of little collector interest or e) all of the above. Please bid accordingly. I try to describe them as much as I can afford the space, but because of their nature descriptions have to be limited.
8. Book prices include USA Book Rate or International Surface Mail postage. First Class or Air mail is extra, unless otherwise indicated.

BIDDING BY TELEPHONE? My number is (415) 648-8634. The best hours to reach me are 7-9 a.m. USA Pacific Time. However the least expensive and most certain means to bid is by mail even if only on a postcard. At times business may keep me away from the phone for days. I will accept bids over the phone and current bid levels are available from the computer. However if you request such information, you must bid at least 10% over the highest in order to have your new bid qualify. For items quoting under \$10, you must bid at least \$1 more to qualify. For those who like to call in bids at the last minute: I will try to have all bids posted, but often at the end of the day it is not possible when they come in all at once. 98% of all successful bidding is accomplished with high bids by mail.

MAIL AUCTION #19

Prices Realized

Some highlights of this sale were as follows: #781, the Canteen Token of the SMS Emden sold at \$220. The Palestine Zichron Jacob (#930) took second place with a sale price of \$199. Two others, #22 the Ayers Encased Postage sold for \$112 and the Illinois cardboard Sales Tax Token (#27) went for \$138.

Lot #638 from St. Nazaire, France, received the highest number of bids, eleven and sold at \$9. Lot #1053, an unidentified German silver medal, brought ten bids, but sold for \$12. Six lots received nine bids each, #224, 342, 524, 575, 952 and 1120.

In addition Messrs. Niels Baunsgaard of Denmark and Anton Holt of Iceland gave further information about the two Faeroe Islands tokens, Nos. 874 and 875. They were issued by S.P. Peterson between 1929 and 1933 during a shortage of small change and banned by the Danish government during the latter year. The issuer was a general merchant and did not engage in mining.

The left hand column is the Lot number. Lots not listed received no bids or else received those too low for consideration. The middle column is the highest auction price which is rounded to the nearest US dollar, although in many cases the actual amount may have been somewhat above or below that given. Figures in parentheses are the number of those bidding for any given lot.

How many of you who live on the west side of the Atlantic can go to a map and point to the Faeroe Islands? That's what I thought. If you look at a map of Europe they are about 250 miles north of Scotland and include 18 inhabited and 4 uninhabited islands with a total of 1500-2000 residents. The largest island is Streymø. Osterø is the 2nd island and its main town is Fuglefjord, a locality with only one access, from the sea. The Danes own the islands even though the people speak a language more like Old Norse than Danish. Some years ago there was a movement for them to become independent, but the effort came to nothing. The main industries are sheep and fishing and the peaks and crannies provide homes for millions of birds. I couldn't get any data about S.P. Petersen or the use of the tokens shown other than a note on the envelope indicating that they were used in some mining operation unless it was bird guano like those in South America. There are apparently no functioning mines in the islands these days. A rare series from an even rarer location. (See Lots 874 and 875.)
